Notice is hereby given to all prospective bidders that plans and specifications on the subject project are modified as hereinafter set forth. This Addendum shall be attached to and form a part of the plans and specifications. All bidders must acknowledge receipt of this addendum on the Bid Form. In case of difference with previous addenda or communications, this addendum takes precedence.

It is the responsibility of all bidders to notify all subcontractors from whom they request bids and from whom they accept bids of all changes contained in this addendum.

RFI (S)

1. Item No. 1
   Question: Is this project PLA?

   Response: It is not. It is LCP – Labor Compliance Program – prevailing wages. See item #5 in Project Manual, Section 00 11 16_Notice to Contractors Calling for Bids. Also, see attached information page for your reference.

2. Item No. 2
   Question: The drawing sheet E4.01 shown one line diagram for the fire pump switchboard to be connected to utility overhead service but it did not indicate the location of the utility service pole or how the 4”conduit should be routed to the service drop. Also there is only the main circuit breaker for the switchboard and no other breaker for the pumps. Please have the engineer advise

   Response: The electrical service application is in process. The 4” conduit should be routed to the nearest utility pole for bid purposes, once utility engineered drawings are finalized we will adjust. This is a fire pump only service. The main breaker will feed the fire pump controller with a tap off that for the jockey pump. Any other power will be from the existing service for the campus.

3. Item No. 1
   Question: Sheet E4.01 at the Single Line Diagram shows a heavy line weight – indicating new work- to the modular(s). Is there electrical scope of work for the modular(s)?
Response: There is not electrical scope of work for the modular(s).

ATTACHMENTS:
  DIR websites information to determine prevailing wage rates.
The appropriate Prevailing Wage Determinations for use in the course of an audit are determined by the first of the two bid advertisement dates for the contract/project. Bid advertisement dates from February 22 to August 21 call for the determination that is listed as “yyyy-01” (yyyy stands for the year for example 2008-01). Dates from August 22 to February 21 call for the “yyyy-02” determination. The wage determination currently used for projects advertised at this time is listed as **DIR 2016-1**.

**DIR Websites to verify Prevailing Wage Rates for Journeymen & Apprentices:**

https://www.dir.ca.gov/OPRL/dprevagedetermination.htm

**San Francisco County Wage Rates Are Also Attached**

**Notes:**
1. Pre-determined increases may apply for individual crafts.
2. Travel & subsistence may apply for individual crafts.
3. Metal Roofing work has a separate wage determination and prevailing wage rates

**DIR Website to verify Apprentices are properly registered with DAS:**

https://www.dir.ca.gov/OPRL/pwappwage/PWAppWageStart.asp

**Note:** Apprentice to Journeyman ratios may vary for each craft.

**DIR Website to verify Electricians are certified by DAS:**

http://www.dir.ca.gov/DAS/ElectCert/ElectCertSearch.asp

**Non-PLA Projects with State Bond funding will also be subject to direct DIR oversight.**
